**Period for Reply** -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### **Status of the Claims**

Claims 20-26, 28 and 34-41 are pending.

New claims 39-41 have been added to the original claims.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

The rejection of claims 20-38 under 35 U.S.C. 112, second paragraph has been withdrawn in view of the amendment to the claims.

### **Claim Rejections - 35 U.S.C. § 103**

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

3. Claims 20-26, 28 and 34-41 remain rejected under 35 U.S.C. 103(a) as being unpatentable over Fischer et al., (U.S. Patent number 6,022,988) in view of Woodbury et al., (U.S. Patent number 5,235,089) for the reasons set forth in the previous office action mailed on 06/12/08.

***Response to Remarks***

Applicant's arguments filed 10/13/08 have been fully considered but they are not persuasive. Applicants argue that the Fischer catalyst enables short residence times with good yield and selectivity's, thus; there is no motivation to replace the organic 1,3-dimethylimidazolium-4-carboxylate base of Fischer with the inorganic lithium hydroxide of Woodbury. Applicants argument is misguided because among the bases applicable to the current process is the inorganic base of Woodbury. Thus, the base is not limited to the one taught by Fischer. With respect to the argument about the use of filtered porosity paper, various means of filtering products are available to the skilled artisan. Note applicants cannot show nonobviousness by attacking references individually where the rejections are made or based on combinations of references. Note *In re*

*Keller*, 642 F.2d. 413, 208 U.S.P.Q. 871 CCPA (1981) and also *In re Merck & Co*, 800 F.2d. 1091, 231 U.S.P.Q. 375 (Fed. Cir 1986).

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
